## Extended Parts Warranty Terms & Conditions

Your security products are an important part of your building security and staff safety. That's why we want to make sure you'll be happy long after your initial purchase of the equipment.

### Extended Parts Warranty:

Our Extended PARTS Warranties allow you to benefit from continuing peace of mind that any faulty parts will be replaced free of charge even after your initial one-year manufacturer's warranty expires.

The Extended PARTS Warranties is designed to provide expert protection for your investment and reduce your cost of ownership. The warranty is intended to be taken out when you first purchase the equipment. However, if you own a PG300 gate that's still within the one-year manufacturer's warranty and would like to maintain the reassurance and protection against unexpected parts failure, then please contact your supplier for more details.

### Coverage Overview:

The Extended PARTS Warranties provides extensive cover against unexpected mechanical and electrical component failure, typically including but not limited to the following\*

- Head mechanism components
  - ⇒ Brake/Clutch
  - ⇒ Stop/cams
  - ⇒ Gear box
  - ⇒ Motor
- JX Motor controllers
- TD Main controller
- I/O sensor controllers
- I/O led controllers
- Detection Sensors
- PSU
- Isolating switch
- Functional and orientational LED's

*\*Exact benefits and coverage may vary by market and not all markets currently offer Extended PARTS Warranties. Please contact your local supplier for more information.*
